## Identifying Roll Types

Ask yourself these 4 simple questions to identify your ATM receipt roll type:

- 1) Who is the ATM Machine Manufacturer?  
Is it Diebold, NCR, Fujitsu, Triton, Tidel, Tranax, Nextran or other
- 2) What is the ATM Machine Model Number?
- 3) Does my machine take Bond or Thermal paper receipt rolls?  
Bond - printing requires a ribbon and usually has sense marks on the front  
Thermal - printing does NOT require a ribbon, and if present, sense marks are generally on the back, uncoated side
- 4) What is the Repeat Length?  
Repeat length is the distance between the top of one sense mark to the top of the next
